# Logan Travis

780-887-3498 | contact@ltravis.ca | LinkedIn | GitHub | GitLab

## Education

**University of Alberta** — Edmonton, Alberta
*B.Sc. Specialization in Computing Science* — *Dec. 2025 (Expected)*

## Projects

**Prize Bot V2** | *Go, DiscordGo, Railway, GitLab, GORM, AWS, PostgreSQL, Docker* — April 2021
- Discord Bot written in Go for managing auctions and giveaways in gaming communities
- Integrated ticket system for users to claim and manage event prizes
- AWS RDS (PostgreSQL) database for user and server data storage
- Modular event coordination features (auctions, giveaways, shop, etc.)
- Fully rewrote the bot to improve performance, and migrate from AWS to Railway for easier deployments saving costs by over **95%**

**Ark Guardian** | *Python, PostgreSQL, Railway* — April 2023
- Over 160 000 players tracked across 1450+ gameservers
- Log file parsing service for Gaming Servers
- Allowed efficient administration of servers, including banning, restarting, and monitoring players.
- Optimizing and rewriting core code to fix a memory leak and improve performance.

**Travis Drilling Website** | *Vercel, NextJS, React, Tailwind CSS* — May 2023
- Landing page built with NextJS and deployed on Vercel

## Experience

**Software Developer** — Apr. 2023 – Present
*Freelance* — *Remote*
- Developed an eCommerce site for a community with over 6000 players using SvelteKit and Stripe.
- Created simple Discord integrations using DiscordGo and Python to help users manage their server more efficiently.

**Chamber Platform Coordinator** — Apr. 2022 – Present
*Alberta Chambers of Commerce* — *Remote*
- Provided technical support for Chamber Market and Chamber Platform with an average response time of less than an hour.
- Beta tested and implemented new features for Chamber Platform's CRM system.
- Assisted with Chamber and Vendor onboarding to ensure a smooth process and improve the process for future clients.
- Used python to aggregate CSV data for surveys and reporting, and automate some daily tasks.

**ACC Chamber Market Coordinator** — Oct. 2021 - Apr. 2022
*Leduc, Nisku & Wetaskiwin Regional Chamber of Commerce* — *Remote*
- Developed a Go-based data aggregation tool using UniDoc for reports from chambers across Alberta, saving over 10 hours of manual work per week.
- Maintained vendor onboarding status reports for Chamber Market
- Provided technical support for Chamber Market and Chamber Platform.
- Created documentation for Chamber Market and Chamber Platform.
- Assisted the Chamber in recruiting vendors and businesses to Chamber Market

## Technical Skills

**Languages**: Go, Python, C, MATLAB, Typescript, JavaScript, Mojo, Dart, HTML, CSS, SQL, R, C#
**Libraries**: Sveltekit, NextJS, React, Flutter, Tailwind **Developer Tools**: AWS, Docker, Vercel, Firebase, Railway, GitHub, GitLab, Github Actions, Excel, RStudio
**Other Skills**:
